JOURNAL OF MOLECULAR CATALYSIS

Author Index

Aguilar-Rios, G., see Armendariz, H. 325

Alekseev, O.S., Beutel, T., Paukshtis, E.A., Ryndin, Yu.A., Likholobov, V.A. and Knözinger, H.
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217

Alper, H., see Somasunderam, A. 35

Alper, H., see Goldberg, Y. 149

Alvarez, F., Magnoux, P., Ramôa Ribeiro, F. and Guisnet, M.
Transformation of cyclohexanone on PtHZSM5 catalysts – reaction scheme 67

Armendariz, H., Toledo, J.A., Aguilar-Rios, G., Valenzuela, M.A., Salas, P., Cabral, A., Jimenez, H. and Schifter, I.
Oxidative dehydrogenation of *n*-butane on zinc–chromium ferrite catalysts 325

Bajaj, H.C., see Chatterjee, D. L235

Basset, J.-M., see Nédez, C. L239

Benazzi, E., see Nédez, C. L239

Beutel, T., see Alekseev, O.S. 217

Bhatt, K., see Chatterjee, D. L235

Blasco, J., see Sanchez, M.C. 311

Boellaard, E., Vreeburg, R.J., Gijzeman, O.L.J. and Geus, J.W.
The interaction of carbon monoxide with nickel–iron alloys. A comparison between single crystal surfaces and supported catalysts 299

Bond, G.C., see Coq, B. 107

Cabral, A., see Armendariz, H. 325

Calabrò, V., see Todisco, S. 333

Ceder, R., Muller, G. and Ordinas, J.I.
Hydrovinylation of styrene derivatives to 3-aryl-1-butenes catalysed by nickel complexes 127

Chatterjee, D., Bajaj, H.C., Das, A. and Bhatt, K.
First report on highly efficient alkene hydrogenation catalysed by Ni(salen) complex encapsulated in zeolite L235

Chauvin, Y., Hirschauer, A. and Olivier, H.
Alkylation of isobutane with 2-butene using 1-butyl-3-methylimidazolium chloride–aluminium chloride molten salts as catalysts 155

Choplin, A., see Nédez, C. L239

Chung, Y.K., see Rhyoo, H.-Y. 41

Coq, B., Crabb, E., Warawdekar, M., Bond, G.C., Slaa, J.C., Galvagno, S., Mercadante, L., Ruiz, J.G. and Sierra, M.C.S.
Catalytic and structural properties of ruthenium bimetallic catalysts: preparation and characterization 107

Corker, J., see Nédez, C. L239

Crabb, E., see Coq, B. 107

Das, A., see Chatterjee, D. L235

Davis, R., Stephens, K. and Hájek, M.
Addition of tetrachloromethane to *cis*-cycloalkenes in the presence of transition metal complexes 269

Dwyer, J., see Mordi, R.C. 51

Elsevier, C.J.
NMR at elevated gas pressures and its application to homogeneous catalysis 285

Enzo, S., see Lenarda, M. 201

Fields, R., see Mordi, R.C. 51

Galvagno, S., see Coq, B. 107

Ganzerla, R., see Lenarda, M. 201

García, J., see Sanchez, M.C. 311

Geus, J.W., see Boellaard, E. 299

Gijzeman, O.L.J., see Boellaard, E. 299

Goldberg, Y. and Alper, H.
Iridium(I) and phase-transfer catalyzed hydrogen-transfer reduction of ketones using potassium fluoride on alumina as a base 149

Guczi, L., Hoffer, T. and Zsoldos, Z.
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167

Guisnet, M., see Alvarez, F. 67

Hájek, M., see Davis, R. 269

Hayashi, H., see Matsumura, Y. 81

Hirschauer, A., see Chauvin, Y. 155

Hoang-Van, C., Pichat, P. and Mozzanega, M.-N.
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187

Hoffer, T., see Guczi, L. 167

Igarashi, R., see Kameda, N. 257

Iñiguez, M.P., see Pis Diez, R. 95
Iorio, G., see Todisco, S. 333
Jimenez, H., see Armendariz, H. 325
Joly, J.-F., see Nédez, C. L239
Kameda, N. and Igarashi, R.
Homogeneous catalytic hydrogenation of olefins by use of $RhH_2(Ph_2N_3)(PPh_3)_2$ in dimethyl sulfoxide 257
Keim, W. and Schulz, R.P.
Chelate control in the nickel-complex catalyzed homogeneous oligomerization of ethylene 21
Knözinger, H., see Alekseev, O.S. 217
Lee, B.Y., see Rhyoo, H.-Y. 41
Lenarda, M., Ganzerla, R., Storaro, L., Enzo, S. and Zanoni, R.
Bifunctional catalysts from pillared clays: vapour phase conversion of propene to acetone catalyzed by iron and ruthenium containing aluminum pillared bentonites. 201
Likholobov, V.A., see Alekseev, O.S. 217
Magnoux, P., see Alvarez, F. 67
Matsubara, T. and Saito, Y.
Catalysis of phosphine-coordinated rhodium(I) complexes for 2-propanol dehydrogenation 1
Matsumura, Y., Sugiyama, S., Hayashi, H., Shigemota, N., Saitoh, K. and Moffat, J.B.
Strontium hydroxyapatites: catalytic properties in the oxidative dehydrogenation of methane to carbon oxides and hydrogen 81
Mayoral, J.A., see Sanchez, M.C. 311
Meister, A., Meister, G. and Süss-Fink, G.
Hectorite-supported ruthenium: a hydrogenation catalyst with molecular-sieve properties L123
Meister, G., see Meister, A. L123
Mercadante, L., see Coq, B. 107
Moffat, J.B., see Matsumura, Y. 81
Mordi, R.C., Fields, R. and Dwyer, J.
Thermolysis of alkyl aryl ethers catalysed by HZSM-5, P-HZSM-5, H-Theta-1, H-Y and H-Mordenite zeolites 51
Mozzanega, M.-N., see Hoang-Van, C. 187
Muller, G., see Ceder, R. 127
Muzart, J. and N'ait Ajjou, A.
Chromium-catalyzed homolytic scission of organic peroxides with *t*-butyl hydroperoxide and its relation to benzylic oxidation 141
Muzart, J. and N'ait Ajjou, A.
Highly efficient oxygen transfer from *tert*-butyl hydroperoxide to benzylic carbons catalyzed by chromium(VI) oxide under high substrate/hydroperoxide ratios 277
Mylonas, A. and Papaconstantinou, E.
Photocatalytic degradation of chlorophenols to CO_2 and HCl with polyoxotungstates in aqueous solution 261
N'Ait Ajjou, A., see Muzart, J. 141
N'Ait Ajjou, A., see Muzart, J. 277
Nédez, C., Choplin, A., Corker, J., Basset, J.-M., Joly, J.-F. and Benazzi, E.
Surface organometallic chemistry on zeolites: control of the pore opening of mordenite by grafting of thermally stable $-GeBu_3$ fragments L239
Olivier, H., see Chauvin, Y. 155
Ordinas, J.I., see Ceder, R. 127
Papaconstantinou, E., see Mylonas, A. 261
Paukshtis, E.A., see Alekseev, O.S. 217
Pichat, P., see Hoang-Van, C. 187
Pis Diez, R. and Iñiguez, M.P.
Molecular orbital study of the gas phase reaction of Na_xBi_4 clusters with HCl ($x = 1,2$) 95
Prasad, R.V. and Thakkar, N.V.
Study of cobalt complexes as catalysts in the decomposition of hydrogen peroxide 9
Proietti, M.G., see Sanchez, M.C. 311
Ramôa Ribeiro, F., see Alvarez, F. 67
Rhyoo, H.-Y., Lee, B.Y., Yu, H.K.B. and Chung, Y.K.
Study of the reactivity of $ClCo(PPh_3)_3$ 41
Ruiz, J.G., see Coq, B. 107
Ryndin, Yu.A., see Alekseev, O.S. 217
Saito, Y., see Matsubara, T. 1
Saitoh, K., see Matsumura, Y. 81
Salas, P., see Armendariz, H. 325
Sanchez, M.C., García, J., Mayoral, J.A., Blasco, J. and Proietti, M.G.
Structural study of Ti^{IV} exchanged K10-montmorillonite by XRD, EXAFS and XANES 311
Schifter, I., see Armendariz, H. 325
Schulz, R.P., see Keim, W. 21
Shalyaev, K.V., see Talsi, E.P. 245
Shigemota, N., see Matsumura, Y. 81
Sierra, M.C.S., see Coq, B. 107
Slaa, J.C., see Coq, B. 107
Somasunderam, A. and Alper, H.
Use of rhodium on carbon and 1,3-bis(diphenylphosphino)propane to catalyze the regioselective hydroformylation of alkenes with formic acid as the hydrogen source 35
Stephens, K., see Davis, R. 269
Storaro, L., see Lenarda, M. 201
Sugiyama, S., see Matsumura, Y. 81
Süss-Fink, G., see Meister, A. L123
Talsi, E.P. and Shalyaev, K.V.
^{51}V NMR and EPR study of the mechanistic details of oxidation with $VO(O_2)(Pic)(H_2O)_2$ 245
Thakkar, N.V., see Prasad, R.V. 9
Todisco, S., Calabrò, V. and Iorio, G.
A kinetic model for the pectin hydrolysis using an *endo*-acting pectinase from *Rhizopus* 333
Toledo, J.A., see Armendariz, H. 325

Valenzuela, M.A., see Armendariz, H. 325
Vreeburg, R.J., see Boellaard, E. 299
Warawdekar, M., see Coq, B. 107
Yu, H.K.B., see Rhyoo, H.-Y. 41
Zanoni, R., see Lenarda, M. 201
Zsoldos, Z., see Guczi, L. 167

JOURNAL OF MOLECULAR CATALYSIS

Subject Index

Acetone
Bifunctional catalysts from pillared clays: vapour phase conversion of propene to acetone catalyzed by iron and ruthenium containing aluminum pillared bentonites. 201
Activation
Homogeneous catalytic hydrogenation of olefins by use of $RhH_2(Ph_2N_3)(PPh_3)_2$ in dimethyl sulfoxide 257
Addition
Addition of tetrachloromethane to *cis*-cycloalkenes in the presence of transition metal complexes 269
Adsorption
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217
Alkenes
Use of rhodium on carbon and 1,3-bis(diphenylphosphino)propane to catalyze the regioselective hydroformylation of alkenes with formic acid as the hydrogen source 35
Alkyl aryl ethers
Thermolysis of alkyl aryl ethers catalysed by HZSM-5, P-HZSM-5, H-Theta-1, H-Y and H-Mordenite zeolites 51
Alkylation
Alkylation of isobutane with 2-butene using 1-butyl-3-methylimidazolium chloride–aluminium chloride molten salts as catalysts 155
Alkynes
Study of the reactivity of $ClCo(PPh_3)_3$ 41
Alloys
The interaction of carbon monoxide with nickel–iron alloys. A comparison between single crystal surfaces and supported catalysts 299
Alumina
Catalytic and structural properties of ruthenium bimetallic catalysts: preparation and characterization 107
Iridium(I) and phase-transfer catalyzed hydrogen-transfer reduction of ketones using potassium fluoride on alumina as a base 149
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
Aluminium
Bifunctional catalysts from pillared clays: vapour phase conversion of propene to acetone catalyzed by iron and ruthenium containing aluminum pillared bentonites. 201
Anisole
Thermolysis of alkyl aryl ethers catalysed by HZSM-5, P-HZSM-5, H-Theta-1, H-Y and H-Mordenite zeolites 51
Apatites
Strontium hydroxyapatites: catalytic properties in the oxidative dehydrogenation of methane to carbon oxides and hydrogen 81
Aromatic compounds
Hectorite-supported ruthenium: a hydrogenation catalyst with molecular-sieve properties L123
Aryl derivatives
Hydrovinylation of styrene derivatives to 3-aryl-1-butenes catalysed by nickel complexes 127
Bentonites
Bifunctional catalysts from pillared clays: vapour phase conversion of propene to acetone catalyzed by iron and ruthenium containing aluminum pillared bentonites. 201
Benzylic compounds
Highly efficient oxygen transfer from *tert*-butyl hydroperoxide to benzylic carbons catalyzed by chromium(VI) oxide under high substrate/hydroperoxide ratios 277
Benzylic peroxides
Chromium-catalyzed homolytic scission of organic peroxides with *t*-butyl hydroperoxide and its relation to benzylic oxidation 141
Bifunctional catalysts
Bifunctional catalysts from pillared clays: vapour phase conversion of propene to acetone catalyzed by iron and ruthenium containing aluminum pillared bentonites. 201
Bimetallic catalysts
Catalytic and structural properties of ruthenium

bimetallic catalysts: preparation and characterization 107
Bismuth
Molecular orbital study of the gas phase reaction of Na_xBi_4 clusters with HCl ($x = 1,2$) 95
Butene
Hydrovinylation of styrene derivatives to 3-aryl-1-butenes catalysed by nickel complexes 127
Butenes
Alkylation of isobutane with 2-butene using 1-butyl-3-methylimidazolium chloride–aluminium chloride molten salts as catalysts 155
t-Butylhydroperoxide
Chromium-catalyzed homolytic scission of organic peroxides with *t*-butyl hydroperoxide and its relation to benzylic oxidation 141
tert-Butylhydroperoxide
Highly efficient oxygen transfer from *tert*-butyl hydroperoxide to benzylic carbons catalyzed by chromium(VI) oxide under high substrate/hydroperoxide ratios 277
Carbon
Use of rhodium on carbon and 1,3-bis(diphenylphosphino)propane to catalyze the regioselective hydroformylation of alkenes with formic acid as the hydrogen source 35
Carbon monoxide
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II[1]. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217
The interaction of carbon monoxide with nickel–iron alloys. A comparison between single crystal surfaces and supported catalysts 299
Carbon oxides
Strontium hydroxyapatites: catalytic properties in the oxidative dehydrogenation of methane to carbon oxides and hydrogen 81
Carbonylation
NMR at elevated gas pressures and its application to homogeneous catalysis 285
Carbonyl compounds
Study of the reactivity of $ClCo(PPh_3)_3$ 41
Chelate control
Chelate control in the nickel-complex catalyzed homogeneous oligomerization of ethylene 21
Chemisorption
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II[1]. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
Chlorine
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II[1]. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
Chlorophenols
Photocatalytic degradation of chlorophenols to CO_2 and HCl with polyoxotungstates in aqueous solution 261
Chromium
Chromium-catalyzed homolytic scission of organic peroxides with *t*-butyl hydroperoxide and its relation to benzylic oxidation 141
Chromium oxide
Highly efficient oxygen transfer from *tert*-butyl hydroperoxide to benzylic carbons catalyzed by chromium(VI) oxide under high substrate/hydroperoxide ratios 277
Chromium–zinc ferrite
Oxidative dehydrogenation of *n*-butane on zinc–chromium ferrite catalysts 325
Cobalt
Study of cobalt complexes as catalysts in the decomposition of hydrogen peroxide 9
Study of the reactivity of $ClCo(PPh_3)_3$ 41
Crown ethers
Iridium(I) and phase-transfer catalyzed hydrogen-transfer reduction of ketones using potassium fluoride on alumina as a base 149
Crystal surface
The interaction of carbon monoxide with nickel–iron alloys. A comparison between single crystal surfaces and supported catalysts 299
Cycloalkenes
Addition of tetrachloromethane to *cis*-cycloalkenes in the presence of transition metal complexes 269
Cyclohexanone
Transformation of cyclohexanone on PtHZSM5 catalysts – reaction scheme 67
Decomposition
Study of cobalt complexes as catalysts in the decomposition of hydrogen peroxide 9
Degradation
Photocatalytic degradation of chlorophenols to CO_2 and HCl with polyoxotungstates in aqueous solution 261
Dehydrogenation
Catalysis of phosphine-coordinated rhodium(I) complexes for 2-propanol dehydrogenation 1
Strontium hydroxyapatites: catalytic properties in the oxidative dehydrogenation of methane to carbon oxides and hydrogen 81
Dimethyl sulfoxide
Homogeneous catalytic hydrogenation of olefins by use of $RhH_2(Ph_2N_3)(PPh_3)_2$ in dimethyl sulfoxide 257

Encapsulation
First report on highly efficient alkene hydrogenation catalysed by Ni(salen) complex encapsulated in zeolite L235
EXAFS
Structural study of Ti^{IV} exchanged K10-montmorillonite by XRD, EXAFS and XANES 311
Formic acid
Use of rhodium on carbon and 1,3-bis(diphenylphosphino)propane to catalyze the regioselective hydroformylation of alkenes with formic acid as the hydrogen source 35
FTIR
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217
Gas phase
Molecular orbital study of the gas phase reaction of Na_xBi_4 clusters with HCl ($x = 1,2$) 95
Germanium
Surface organometallic chemistry on zeolites: control of the pore opening of mordenite by grafting of thermally stable $-GeBu_3$ fragments L239
Grafting
Surface organometallic chemistry on zeolites: control of the pore opening of mordenite by grafting of thermally stable $-GeBu_3$ fragments L239
Hectorite
Hectorite-supported ruthenium: a hydrogenation catalyst with molecular-sieve properties L123
High pressure
NMR at elevated gas pressures and its application to homogeneous catalysis 285
Homolytic scission
Chromium-catalyzed homolytic scission of organic peroxides with *t*-butyl hydroperoxide and its relation to benzylic oxidation 141
Hydroformylation
Use of rhodium on carbon and 1,3-bis(diphenylphosphino)propane to catalyze the regioselective hydroformylation of alkenes with formic acid as the hydrogen source 35
Hydrogen
Transformation of cyclohexanone on PtHZSM5 catalysts – reaction scheme 67
Hydrogenation
Hectorite-supported ruthenium: a hydrogenation catalyst with molecular-sieve properties L123
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217
First report on highly efficient alkene hydrogenation catalysed by Ni(salen) complex encapsulated in zeolite L235
Homogeneous catalytic hydrogenation of olefins by use of $RhH_2(Ph_2N_3)(PPh_3)_2$ in dimethyl sulfoxide 257
NMR at elevated gas pressures and its application to homogeneous catalysis 285
Hydrogen chloride
Molecular orbital study of the gas phase reaction of Na_xBi_4 clusters with HCl ($x = 1,2$) 95
Hydrogen peroxide
Study of cobalt complexes as catalysts in the decomposition of hydrogen peroxide 9
Hydrogen transfer
Iridium(I) and phase-transfer catalyzed hydrogen-transfer reduction of ketones using potassium fluoride on alumina as a base 149
Hydrovinylation
Hydrovinylation of styrene derivatives to 3-aryl-1-butenes catalysed by nickel complexes 127
HZSM5
Transformation of cyclohexanone on PtHZSM5 catalysts – reaction scheme 67
Iridium
Iridium(I) and phase-transfer catalyzed hydrogen-transfer reduction of ketones using potassium fluoride on alumina as a base 149
Iron
Bifunctional catalysts from pillared clays: vapour phase conversion of propene to acetone catalyzed by iron and ruthenium containing aluminum pillared bentonites. 201
The interaction of carbon monoxide with nickel–iron alloys. A comparison between single crystal surfaces and supported catalysts 299
Isobutane
Alkylation of isobutane with 2-butene using 1-butyl-3-methylimidazolium chloride–aluminium chloride molten salts as catalysts 155
Mechanism
Addition of tetrachloromethane to *cis*-cycloalkenes in the presence of transition metal complexes 269
Metal complexes
Addition of tetrachloromethane to *cis*-cycloalkenes in the presence of transition metal complexes 269
Methane
Strontium hydroxyapatites: catalytic properties in the oxidative dehydrogenation of methane to carbon oxides and hydrogen 81
Methanol exchange
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II[1]. Effect of chlorine and Nb_2O_5 content on

the structure and reactivity in CH_3OH/D_2 exchange 167
Molecular orbital study
Molecular orbital study of the gas phase reaction of Na_xBi_4 clusters with HCl ($x = 1,2$) 95
Molten salts
Alkylation of isobutane with 2-butene using 1-butyl-3-methylimidazolium chloride–aluminium chloride molten salts as catalysts 155
Montmorillonites
Structural study of Ti^{IV} exchanged K10-montmorillonite by XRD, EXAFS and XANES 311
Mordenite
Surface organometallic chemistry on zeolites: control of the pore opening of mordenite by grafting of thermally stable $-GeBu_3$ fragments L239
Mössbauer spectroscopy
Oxidative dehydrogenation of *n*-butane on zinc–chromium ferrite catalysts 325
Nickel
Chelate control in the nickel-complex catalyzed homogeneous oligomerization of ethylene 21
Hydrovinylation of styrene derivatives to 3-aryl-1-butenes catalysed by nickel complexes 127
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187
First report on highly efficient alkene hydrogenation catalysed by Ni(salen) complex encapsulated in zeolite L235
The interaction of carbon monoxide with nickel–iron alloys. A comparison between single crystal surfaces and supported catalysts 299
Niobia
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II[1]. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
Niobium oxide
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217
NMR spectroscopy
^{51}V NMR and EPR study of the mechanistic details of oxidation with $VO(O_2)(Pic)(H_2O)_2$ 245
NMR at elevated gas pressures and its application to homogeneous catalysis 285
α-Olefins
Chelate control in the nickel-complex catalyzed homogeneous oligomerization of ethylene 21
First report on highly efficient alkene hydrogenation catalysed by Ni(salen) complex encapsulated in zeolite L235
Homogeneous catalytic hydrogenation of olefins by use of $RhH_2(Ph_2N_3)(PPh_3)_2$ in dimethyl sulfoxide 257
Oligomerization
Chelate control in the nickel-complex catalyzed homogeneous oligomerization of ethylene 21
Study of the reactivity of $ClCo(PPh_3)_3$ 41
Organochloroaluminates
Alkylation of isobutane with 2-butene using 1-butyl-3-methylimidazolium chloride–aluminium chloride molten salts as catalysts 155
Oxidation
^{51}V NMR and EPR study of the mechanistic details of oxidation with $VO(O_2)(Pic)(H_2O)_2$ 245
Highly efficient oxygen transfer from *tert*-butyl hydroperoxide to benzylic carbons catalyzed by chromium(VI) oxide under high substrate/hydroperoxide ratios 277
Oxidative dehydrogenation
Oxidative dehydrogenation of *n*-butane on zinc–chromium ferrite catalysts 325
Palladium
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187
Peroxo complexes
^{51}V NMR and EPR study of the mechanistic details of oxidation with $VO(O_2)(Pic)(H_2O)_2$ 245
Phase transfer
Iridium(I) and phase-transfer catalyzed hydrogen-transfer reduction of ketones using potassium fluoride on alumina as a base 149
Phenetole
Thermolysis of alkyl aryl ethers catalysed by HZSM-5, P-HZSM-5, H-Theta-1, H-Y and H-Mordenite zeolites 51
Phosphine complexes
Catalysis of phosphine-coordinated rhodium(I) complexes for 2-propanol dehydrogenation 1
Study of the reactivity of $ClCo(PPh_3)_3$ 41
Phosphine derivatives
Use of rhodium on carbon and 1,3-bis(diphenylphosphino)propane to catalyze the regioselective hydroformylation of alkenes with formic acid as the hydrogen source 35
Photocatalysis
Photocatalytic degradation of chlorophenols to CO_2 and HCl with polyoxotungstates in aqueous solution 261
Photocatalysts
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187

Pillared clays
Bifunctional catalysts from pillared clays: vapour phase conversion of propene to acetone catalyzed by iron and ruthenium containing aluminum pillared bentonites. 201
Platinum
Transformation of cyclohexanone on PtHZSM5 catalysts – reaction scheme 67
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187
Polyoxotungstates
Photocatalytic degradation of chlorophenols to CO_2 and HCl with polyoxotungstates in aqueous solution 261
Pore opening
Surface organometallic chemistry on zeolites: control of the pore opening of mordenite by grafting of thermally stable $-GeBu_3$ fragments L239
Potassium fluoride
Iridium(I) and phase-transfer catalyzed hydrogen-transfer reduction of ketones using potassium fluoride on alumina as a base 149
Promoter
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217
Propanol
Catalysis of phosphine-coordinated rhodium(I) complexes for 2-propanol dehydrogenation 1
Reduction
Study of the reactivity of $ClCo(PPh_3)_3$ 41
Iridium(I) and phase-transfer catalyzed hydrogen-transfer reduction of ketones using potassium fluoride on alumina as a base 149
Regioselectivity
Use of rhodium on carbon and 1,3-bis(diphenylphosphino)propane to catalyze the regioselective hydroformylation of alkenes with formic acid as the hydrogen source 35
Addition of tetrachloromethane to *cis*-cycloalkenes in the presence of transition metal complexes 269
Rhodium
Catalysis of phosphine-coordinated rhodium(I) complexes for 2-propanol dehydrogenation 1
Use of rhodium on carbon and 1,3-bis(diphenylphosphino)propane to catalyze the regioselective hydroformylation of alkenes with formic acid as the hydrogen source 35
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217
Homogeneous catalytic hydrogenation of olefins by use of $RhH_2(Ph_2N_3)(PPh_3)_2$ in dimethyl sulfoxide 257
Ring size
Chelate control in the nickel-complex catalyzed homogeneous oligomerization of ethylene 21
Ruthenium
Catalytic and structural properties of ruthenium bimetallic catalysts: preparation and characterization 107
Hectorite-supported ruthenium: a hydrogenation catalyst with molecular-sieve properties L123
Bifunctional catalysts from pillared clays: vapour phase conversion of propene to acetone catalyzed by iron and ruthenium containing aluminum pillared bentonites. 201
Salen
First report on highly efficient alkene hydrogenation catalysed by Ni(salen) complex encapsulated in zeolite L235
Shape selectivity
Hectorite-supported ruthenium: a hydrogenation catalyst with molecular-sieve properties L123
Silica
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217
Sodium
Molecular orbital study of the gas phase reaction of Na_xBi_4 clusters with HCl ($x=1,2$) 95
Spin traps
^{51}V NMR and EPR study of the mechanistic details of oxidation with $VO(O_2)(Pic)(H_2O)_2$ 245
Stereoselectivity
Addition of tetrachloromethane to *cis*-cycloalkenes in the presence of transition metal complexes 269
Stilbene
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187
Strontium
Strontium hydroxyapatites: catalytic properties in the oxidative dehydrogenation of methane to carbon oxides and hydrogen 81

Structure
Structural study of Ti^{IV} exchanged K10-montmorillonite by XRD, EXAFS and XANES 311
Styrene derivatives
Hydrovinylation of styrene derivatives to 3-aryl-1-butenes catalysed by nickel complexes 127
Supported catalysts
Catalytic and structural properties of ruthenium bimetallic catalysts: preparation and characterization 107
Hectorite-supported ruthenium: a hydrogenation catalyst with molecular-sieve properties L123
Iridium(I) and phase-transfer catalyzed hydrogen-transfer reduction of ketones using potassium fluoride on alumina as a base 149
FTIR studies of CO chemisorption and reactivity on Rh/SiO_2 catalysts promoted by niobium oxide 217
The interaction of carbon monoxide with nickel–iron alloys. A comparison between single crystal surfaces and supported catalysts 299
Surface chemistry
Surface organometallic chemistry on zeolites: control of the pore opening of mordenite by grafting of thermally stable $-GeBu_3$ fragments L239
TEM
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
Thermolyses
Thermolysis of alkyl aryl ethers catalysed by HZSM-5, P-HZSM-5, H-Theta-1, H-Y and H-Mordenite zeolites 51
Titania
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187
Titanium
Structural study of Ti^{IV} exchanged K10-montmorillonite by XRD, EXAFS and XANES 311
Tolane
Room-temperature hydrogen transfer from liquid methanol or 2-propanol to diphenylacetylene over Group VIII metal/TiO_2 photocatalysts 187
TPR
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
Tributylgermanium fragments
Surface organometallic chemistry on zeolites: control of the pore opening of mordenite by grafting of thermally stable $-GeBu_3$ fragments L239
Tungsten
Photocatalytic degradation of chlorophenols to CO_2 and HCl with polyoxotungstates in aqueous solution 261
Vanadium
^{51}V NMR and EPR study of the mechanistic details of oxidation with $VO(O_2)(Pic)(H_2O)_2$ 245
Vapour phase conversion
Bifunctional catalysts from pillared clays: vapour phase conversion of propene to acetone catalyzed by iron and ruthenium containing aluminum pillared bentonites. 201
XANES
Structural study of Ti^{IV} exchanged K10-montmorillonite by XRD, EXAFS and XANES 311
XPS
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
X-ray diffraction
Oxidative dehydrogenation of *n*-butane on zinc–chromium ferrite catalysts 325
XRD
Promoter effect of niobia on Pt/Al_2O_3 catalysts. Part II. Effect of chlorine and Nb_2O_5 content on the structure and reactivity in CH_3OH/D_2 exchange 167
Structural study of Ti^{IV} exchanged K10-montmorillonite by XRD, EXAFS and XANES 311
Zeolite
First report on highly efficient alkene hydrogenation catalysed by Ni(salen) complex encapsulated in zeolite L235
Zeolites
Thermolysis of alkyl aryl ethers catalysed by HZSM-5, P-HZSM-5, H-Theta-1, H-Y and H-Mordenite zeolites 51
Surface organometallic chemistry on zeolites: control of the pore opening of mordenite by grafting of thermally stable $-GeBu_3$ fragments L239
